### I. PRODUCT DESCRIPTION

Golden raisins are prepared from sound, mature, fresh grapes of *Vitis vinifera*, such as Thompson Seedless, which have been washed, stemmed, sulfured, and tunnel dried. The raisins are then pureed, heated to a specified temperature, and held for a sufficient length of time to ensure product stability while maintaining optimal color and flavor attributes. The product is inspected throughout the process to assure conformance to good manufacturing practices, yielding a clean, wholesome product which meets all standards for human consumption, including compliance with provisions of the Federal regulations.
